CATHOLIC UNIVERSITY OF CENTRAL AFRICA
FACULTY OF SOCIAL AND MANAGEMENT
DEVELOPMENT ECONOMIC STRATEGIES-BME 3

Time: 2hrs 30minutes
Proposed By Dr Fabien SUNDJO

Exercise 1(6 marks) : According to Todaro and Smith, Development is a multidimensional process involving changes in social structures, popular attitudes, and national institutions, as well as the acceleration of economic growth, the reduction of inequality, and the eradication of poverty. As an experts in development economics, state and explain the objectives of Development and the Three Core Values of Development.

Exercise 2: (19 marks): Theories of Economic Development has been modeled using Four Approaches. Without explaining state these approaches and equally state without explaining the sub theories that make up each approach.

Exercise 3 (10 marks): Considering this information to be that of Cameroon: Life expectancy = 74.9; Adult literacy = 95.2%; Enrolment ratio = 77% and GDP per capita (PPP) = $US 12,730. Your calculation should be based on the methodology before UNDP Human Development Report of November 2010.

1. What is the life expectancy index (given min: 25 and max: 85)
2. If we are interested in the education index (given min: 0% and max: 100) we need to first calculate the literacy index then the enrolment index. What is the literacy index?
3. What will be the enrolment index?
4. Following question 2 and 3, calculate the education index if the literacy takes weight 66.7% and the enrolment index 33.3% weight.
5. What is the income index (given min: 100 and max: 40,000)
6. Following question 1, 2, 3, 4 and 5, what is the HDI for Cameroon?

Exercise 4 (15 marks): Because of the limits of the old HDI, a new HDI was constructed and Introduced by UNDP HDR in November 2010. What is new in the New HDI?

N.B Corruption starts when I spy my neighbour's writing paper, it is very possible to be corruption-free!

GOOD LUCK
