General Sociology Examination Questions
First Semester, 2023/2024 Academic Year,
Duration: 2 hours

Answer two of the four questions below

- 1) How relevant is Robert Merton's strain theory to students of economics and management? 35mks
- 2) Sociologists employ theories to understand, explain, analyze and interpret social phenomena. As a social scientist in economics and management, what are the basic characteristics of the functionalist perspective, the conflict perspective and the interactionist perspective? 35mks
- 3) When did sociology first appear as a separate discipline and how are the contributions of the founding fathers important to students of economics and management? 35mks
- 4) We are all members of different types of groups. State the different types of groups and show how your understanding of groups can help you as a student of economics and management. 35mks
