

Evaluation of macroeconomics (2hours)

(Dr. NOUMO FOKO) BME1

Final evaluation

I Define the following concepts: (5 points)

- Fluctuation ✓
- Resident ✓
- Money ✓
- Purchasing power
- Slumpflation

✓ II Give and explain the type of unemployment (4 points)

✓ III What are the consequences of a superiority of withdrawals on injections on the four macroeconomic objectives? (4 points)

✓ VI What is underground economy? Present factors that can influent it (3 points)

Application: (4 points)

Let's consider an economy with the GDP and price index presented in the table bellow

Years	GDP (billion of CFA francs)	Price index
2009	456.36	91
2010	459.54	94
2011	463.60	101
2012	464.58	105
2013	461.79	111
2014	466.34	108
2015	470.08	101
2016	471.84	109
2017	469.21	115

WR:

- 1) Calculate the economic growth and the inflation rate of such economy from 2010 to 2017 (2 points)
- 2) Represent each on its graph and give an explanation on their evolution (2 points)
