III Critical analysis of economics circuit (3 points)

VI Forces, weaknesses and methods to calculate GDP (3 points)

Application: (4.5 points)

Let's consider an economy with the GDP and price index presented in the table below

$$\pi_t = \frac{P_t - P_{t-1}}{P_{t-1}}$$

Years	GDP (billion of CFA francs)	Price index
2009	456.36	91
2010	459.54	94
2011	463.60	101
2012	464.58	105
2013	461.79	111
2014	466.34	108
2015	470.08	101
2016	471.84	109
